Unlock Your Expertise in Ensuring Workplace Safety and Compliance

Are you committed to creating a safer work environment and ensuring that industrial machinery operates efficiently and securely? The Certified PUWER Assessor (CPA) Qualification is your gateway to becoming a trusted expert in PUWER (Provision and Use of Work Equipment Regulations) inspection for industrial machinery.

As the original and only dedicated qualification for PUWER inspection of industrial machines, we pride ourselves on setting the industry standard. Join us on a journey that combines technical knowledge, hands-on experience, and regulatory compliance, all designed to empower you with the skills needed to make workplaces safer and more productive.

WHY CHOOSE THE CPA QUALIFICATION?

- 1. Industry Leadership:** We are the pioneers, the original and still the only dedicated qualification for PUWER inspection of industrial machines. Choose the certification trusted by industry leaders.
- 2. Enhanced Expertise:** Gain in-depth knowledge of PUWER regulations, inspection techniques, and risk assessment methods to confidently assess industrial machinery compliance.
- 3. Comprehensive Assessment:** Unlike any other qualification, the CPA Qualification includes both a practical assessment of your abilities and a written exam/assessment, ensuring your skills are truly validated.
- 4. Career Advancement:** Open doors to new career opportunities and advancement within your current organisation by becoming a certified expert in PUWER inspection.
- 5. Safety Advocacy:** Contribute to workplace safety by identifying potential hazards and ensuring machinery meets required safety standards, reducing accidents and incidents.

Learning Outcomes

Throughout the Certified PUWER Assessor (CPA) Qualification, you will achieve the following learning outcomes:

- **Carry out Inspections and Report Findings:** Learn to carry out inspections and report findings in accordance with PUWER '98 guidance (Provision and Use of Work Equipment Regulations).
- **Understand PUWER '98 Requirements and Implementation:** Gain a deep understanding of the requirements and implementation of PUWER '98, allowing you to navigate the regulatory landscape with confidence.
- **Principles of Risk Assessment:** Understand the principles of risk assessment as a result of PUWER '98 inspections, enabling you to identify and mitigate potential hazards effectively.
- **Identify Control Measures:** Learn how to identify control measures using the hierarchy of control and European standards, ensuring machinery compliance with safety standards.

COURSE STRUCTURE

Day 1: PUWER Regulations Theory

- Dive into the theoretical foundation of PUWER regulations.
- Understand the legal framework and principles of PUWER.

Day 2: Risk Assessment of Machinery, Standards, and Report Writing

- Explore advanced risk assessment techniques and European standards.
- Learn how to conduct effective machinery inspections and create comprehensive reports.

Day 3: Exams (Scheduled following successful completion of days 1 and 2 and completion of 3 independent PUWER inspections in the workplace using RiskMach app; reviewed by Spiers)

- Put your knowledge to the test with certification exams.
- Demonstrate your proficiency in PUWER inspection through practical assessments and written exams.

PURCHASE OPTIONS

Choose the option that suits your needs:

- **Individual Seats:** Join courses conducted at our training centre in Tamworth and purchase your seat now with our convenient online checkout.
- **Group Bookings:** Prefer learning at your location? We offer group bookings, bringing the CPA Qualification to your organisation's doorstep for a customised learning experience.

WHO SHOULD ENROL?

The CPA Qualification is designed for:

- Safety professionals
- Maintenance engineers
- Quality control personnel
- Health and safety officers
- Anyone responsible for PUWER compliance in their organisation

CERTIFICATION

Upon successful completion of the CPA Qualification and passing the certification exams on Day 3, you will receive a Certified PUWER Assessor (CPA) certificate, demonstrating your expertise in PUWER inspection of industrial machinery. This certification is valid for three years and can be renewed through ongoing professional development.

INVEST IN WORKPLACE SAFETY

Enhance your skills, boost your career, and make a meaningful impact on workplace safety by enrolling in the Certified PUWER Assessor (CPA) Qualification. Join us in ensuring that industrial machinery operates safely and efficiently, creating a safer work environment for all.

ENROL TODAY

For course schedules, pricing, and enrolment information, please visit our website or contact us on +44 24 7542 0809.

Don't wait to become a Certified PUWER Assessor. Secure your spot in the CPA Qualification program today and take the first step towards a safer and more successful career in industrial machinery inspection.
