Hands-On POWER Inspection Using Your Own Machinery

Unlock Your Practical Skills in PUWER Compliance

Are you ready to take your PUWER (Provision and Use of Work Equipment Regulations) inspection and risk assessment skills to the next level using your own machinery?

Join our **1-Day PUWER Practical Training Course**, uniquely designed to provide you with hands-on experience and in-depth knowledge of practical PUWER inspection and risk assessment using your equipment as the focus. This course is less about theory and more about learning by doing, ensuring you can confidently apply your skills to your own machinery in real-world scenarios.

Course Highlights

- **Duration:** 1 day of hands-on training.
- **Your Machinery:** Learn on your equipment for practical relevance.
- **Expert Instructors:** Receive guidance from experienced PUWER assessors.
- **Real-World Scenarios:** Apply PUWER inspections and risk assessments to your machinery.
- **Small Class Sizes:** Personalised attention and tailored discussions (max. 8)
- **Interactive Learning:** Engage in discussions and group activities.
- **Comprehensive Materials:** Receive course materials and resources.

WHAT WILL YOU LEARN?

PRACTICAL POWER INSPECTION TECHNIQUES

- Conduct simulated PUWER inspections on your own industrial machinery.
- Use inspection tools effectively with hands-on training.
- Identify potential hazards and non-compliance issues in your equipment.
- Gain practical experience in documenting inspection findings for your machines.

WHO SHOULD ATTEND?

THIS COURSE IS IDEAL FOR:

- PUWER Assessors looking to enhance their practical skills with their machinery.
- Safety professionals and managers responsible for PUWER compliance using their own equipment.
- Maintenance engineers seeking hands-on experience in PUWER inspection for their machines.
- Health and safety officers looking to develop practical expertise using their specific machinery.
- Anyone interested in applying PUWER regulations effectively to their workplace equipment.

Course Benefits

- **Practical Relevance:** Gain hands-on expertise in PUWER inspection using your machinery.
- **Improved Confidence:** Build confidence in identifying hazards and ensuring compliance for your specific equipment.
- **Enhanced Safety:** Contribute to safer workplaces by applying practical PUWER knowledge to your machinery.
- **Career Advancement:** Elevate your career prospects with practical PUWER skills tailored to your equipment.
- **Networking:** Connect with industry peers and experts during the course, sharing insights on using your machines.

Contact Information

For course availability, pricing, and enrolment details, please visit our website or contact us on (+44) 24 7542 0809.

Join us for a day of immersive, hands-on learning, and become a master of practical PUWER inspection, all using your own machinery as the focal point for learning and discussion. Enrol now and transform your workplace safety and compliance.

Enrol Today

Take your PUWER inspection skills to the next level with our PUWER Practical Training Course, focusing on your machinery. Secure your spot now and invest in your professional development with a course that empowers you to make an immediate impact on the safety and compliance of your equipment.
